Thank you very much for your interest in the Nonghyup Red Ginseng Products and the Premium Natural Neutral Soap Probubbly products.

In a rapidly changing world market, new challenges and innovations are required not only for companies but also individuals and nations. PROPRE Co., Ltd. is leading the trend of this change and strives to become a leader in environmentally friendly natural soap future technology.

First of all, the PROPRE products are neutral products that focuses on balance between oily skin and dry skin. It maintains clean and good skin without troubles. In order to show a new type of innovative product that combines high-concentration natural materials and blending technology, we are concentrating our efforts on technology development and we are fully committed to securing technology independence for major source technologies.

In addition, we will develop technology competitiveness to the level that can lead the global market with eco-friendly core products, such as natural neutral soap, natural neutral flavor, and natural neutral water boiler.

The Probubbly products that use premium natural ingredients continue to advance into the global market and promise to realize the ultimate value pursued by "probing the pleasure of clean skin, happiness after cleansing, and environmentally friendly soap".

The 21st century, which is now in front of us, is a place of unlimited opportunity. In the future, PROPRE Co., Ltd. is a strong company that does not suffer any difficulties due to craftsmanship that insists on only pure natural products, and creates dreams and hopes with customers through cooperation with company that is full of creativity and vitality with constant challenge I will do my best to ensure that comes true.

PROPRE Co., Ltd. is looking forward to growing into a leading company specialized in natural soap, leading the 21st century, and please send more love and encouragement in the future.

Thank you.

**Park young chal / CEO**

**Probubbly thinks about skin only.**  
**Please check the products' main ingredient made from natural materials**

Unlike ordinary neutral soap using animal fat, the PROBUBBLY neutral soap is a neutral soap made from vegetables and herbs.

In addition, our natural soap product's additives occupy 20 ~ 30% in product composition, while the additives of other companies' soap products 7 ~ 8%. Our products are beneficial to the human

body because they don't cause any percutaneous poisoning due to their environmental friendliness, and especially because it supplies nutrients to the skin. One common phenomenon of natural soap bar is easy disintegration. We have improved this weakness of easy disintegration in our products.

## NATURAL GOLDEN PHELLINUS LINTEUS SOAP

---

100% patented natural handmade soap made from natural ingredients!

This all all-purpose cleanser used for your facial washing, hair washing, and even toe washing! An exceptional multi-body cleanser!

*It has the effect of inhibiting the formation of melanin pigments, effective for eliminating melasma, freckles, and blemish, helping you with your beauty management. It is a functional beauty soap that helps prevent wrinkles and maintain skin elasticity because it helps collagen activation.*

## MAIN INGREDIENT

Phellinus linteus extract, Eggplant extract, Herbal fermentation liquid(Houttuynia cordata, Humulus scandens, Lysimachia christinae Hance, curcuma, etc.), Peanut sprout extract, Honey, Jojoba oil, Collagen, Yucca extract, Shea Butter, Chamaecyparis obtusa oil, etc.

Honey

### Skin Nutrition & Moisturizing Filling

Provides plenty of nutrition and moisturizing to dry, sagging skin with the excellent moisturizing power and nourishing effect of honey!

### Improving waste & dead skin cell

Noni's zeroin ingredient improves waste and dead skin cell, cleansing every corner of your pores!

### Maximizing cleansing power and minimizing irritation

This is a neutral soap that minimizes irritation to the skin while maintaining excellent cleansing properties and keeps the skin moisturized after washing the face!

### Technology the prevent soap softening

This supplements the disadvantage of natural soap that is easily being softened and can be used firmly until the end even though no hardening agent is added!

## HAND-HELD SQUEEZING SOAP

### My own portable soap

Massage the tube before use

*Probubbly Portable Natural Soap helps to remove dead skin cells, and also helps to clean away and exfoliate fine dust and heavy metals on your skin. This product is also made by fermenting more than 60% of natural extracts to give skin elasticity and moisturizing effect to keep skin soft.*

## MAIN INGREDIENT

Goldwater, Peanut sprout extract, honey, red ginseng extract, herbal fermentation broth (Noni, Houttuynia Cordata, Green Tea, Sanghwang Mushroom, Humuli Herba, Bombyx Mori, Blettia Rhizome, etc.), herbal oil, vitamin E, ionized calcium, etc.

## How to use portable squeezable soap

It is hard to use the soft portable soap when it is stiff.

You can use it easily if you massage the tube before you use so that the soap become soft.

### Proper handwashing using natural portable soap

Gently massage the tube before use so that it becomes soft, and squeeze on your hand.

Rub against your back and palm of your hands

Feel the freshness with microbubbles on your hands

Wash away the bubbles with running water until they are gone

## NEUTRAL HANDMADE SOAP

# Why?

## Why do I need to use Neutral Soap?

### Have you heard of the Demodex folliculorum also known as the follicle mite?

The Demodex folliculorum is a mite that feasts on the sebum secreted from the pores causing various skin troubles such as dermatitis, acne and pore enlargement. The Demodex folliculorum prefers the alkaline environment and can proliferate in the alkaline environment.

How do I get rid of the Demodex

folliculorum, the main cause of my skin troubles?

Since the Demodex folliculorum is active and proliferates in the alkaline environment, it is recommended to keep pH-neutral for the health of the skin.

pH 0.0 Acid pH

pH 7.0 Netral pH

pH 10.0 Alkali pH

### Mild acidic soap

PH4.5~PH6.5

Weak forming power

Creating the tough inhabitation condition for Demodex folliculorum

Skin sebum remained in the skin

Getting soft easily

### Natural neutral soap

(Probubbly) PH7~PH7.9

Excellent foaming and cleansing power  
Made with differentiated technology that keeps the soap from softening

Creating the tough inhabitation condition for Demodex folliculorum

Preventing skin aging

Preventing various skin troubles

Containing natural quality essential oils  
(free of preservatives but with fermented herbs and vitamin E)

100% Organic Oil use  
(Containing natural surfactant)

### Alkaline soap

(Normal soap) PH8~PH10

Excellent foaming and cleansing power  
Effective in dirt removal

Creating the best inhabitation condition for Demodex folliculorum

Causing skin dryness and aging

Causing various skin troubles

Containing various synthetic materials and chemical additives  
(Synthetic preservatives, synthetic emulsifiers, pigments, artificial fragrances)

Containing animal fat and mineral oil  
(added with synthetic surfactant)

## Will you still use alkaline or mild acidic soap?

Will you still use alkaline soap that allows the inhabitation of Demodex folliculorum?

Will you still use mild acidic soap that allows the sebum to remain in the skin?

Natural and vegetable neutral soap that is the closest to the skin! Protect your skin with Probubbly the patented and proven neutral soap!

## The patented neutral soap! Probubbly makes it different for you

### REASONS FOR 100% RE-PURCHASE RATE

#### Probubbly's differentiated neutral soap

#### Point 01

It can be used 3 - 4 times longer than ordinary soaps by complementing the disadvantages of the conventional natural soap without using any curing agent, thanks to the differentiated technology.

**Long-lasting soap  
without getting soft**

#### Point 02

All Probubbly's products use more than 20% of natural fermented herbal extracts to maximize the nourishing effect on the skin.

**Containing more  
than 20% of natural  
and fermented  
ingredients**

#### Point 03

A neutral soap that minimizes irritation to the skin.  
Excellent cleansing power leaving no pulling sensation after wash  
Feel the difference with continuous use.

**Minimized skin  
irritation Excellent  
cleansing power**

#### Point 04

The neutral soap made with fermented natural vegetable by Probubbly's patented technology! The technology that puts the skin first!

**Technology**

*The only patented neutral soap that keeps pH 7.0 – 7.9 in Korea  
Probubbly is a company that manufactures soaps at its factory, which are differentiated from ordinary soap products that anyone can make, through its research and development capability*
